

Skyline Orangery

The structure for exclusive events

Orangery – stylish design for extraordinary events

Our “Orangery” product range has been developed for special occasions. Thanks to the clear internal design with a raised roof and large glazing, this structure impresses with its’ open feeling of space.

There is the option of solid walling using glass elements with a panel height of up to 2.00m, as well as the option of sandwich panel walling or the use of PVC walls. The solid walling is based on our “Skyline” façade system, which impresses with its’ largely tool-free installation, installed externally on the frame. Various door or window options are possible.

As a visual highlight, the frame construction can be powder coated in various colours. The structure is designed to be used with either heavy duty or cassette flooring.

Specifications		15m	20m	25m
Width	(A)	15m	20m	25m
Gable distance	(B1)	5m	5m	5m
Bay distance	(B2)	5m	5m	5m
